IOWA STATE COLLEGE

Iowa State College located two miles west of Ames, Iowa, offers courses in agriculture, engineering, home economics, industrial science and veterinary medicine. The equipment and instructing forces of the college enable it to rank among the best of its kind in the country.

Iowa State College has turned out men and women who can be found all over the world leading in their respective fields. Agriculturists from here can be found running successful farms in every part of the country. Engineers have been doing big things all over the world. Graduates from the home economics department, besides making successful homes, have gone out in the dietetics, hospital work and other lines, such as running large restaurants. Veterinarians are practicing successfully. Industrial science graduates have met with equal success.

Central building, shown above, is the main building on the campus which covers 125 acres. In this building are located the administration offices, the main library, and departments of botany, public speaking, history, mathematics and modern languages. The building which is of buff Bedford stone, cost \$375,000 to construct.

AMES - IOWA**A HARD PROPOSITION.**

Mrs. Johnson's cat got its head fast in the cream pitcher, She cut off the cat's head to save the pitcher then smashed the pitcher to get the cat's head out.

This fairly illustrates the individual who puts off taking life insurance to save money and then dies before earning the money he expected to save.

You put yourself under no obligation when you talk to Marsh & Templeton, Managers for New England Mutual Life Insurance Co. Chartered in 1835.

A HARD PROPOSITION.

Mrs. Johnson's cat got its head fast in the cream pitcher, She cut off the cat's head to save the pitcher then smashed the pitcher to get the cat's head out.

This fairly illustrates the individual who puts off taking life insurance to save money and then dies before earning the money he expected to save.

Monuments of Superior Quality

If you will compare our monuments, point by point, for beauty of design, quality of material and excellence of workmanship, you will be impressed with their superiority.

The reason that we have erected a large share of the better cemetery work in this vicinity is because the majority of our sales are to people who have made a careful examination of our monuments and who have convinced themselves that Wayt & Son's memorials represent the utmost in honest value.

Monument making has been our life work, and our reputation of many years' standing is a guarantee that your interests will be protected in every detail.

If you can not find it convenient to visit our shop and examine our display of finished memorial work our representative will be pleased to call and submit photographs and designs, without placing you under any obligation whatsoever.
